Soldier's Car Found, Search Continues

A Tooele County Search and Rescue member discovered the car last driven by a missing soldier, Specialist Joseph Michael Bushling. The Search and Rescue member and his father were on a personal trip near Fish Springs last night when they located the car in a deep ravine.

The search for SPC Bushling is on-going. The soldier, assigned to Medical Command at Fort Carson, Colorado and stationed at the Dugway Proving Ground Medical Clinic, went missing last Sunday, May 8. Dugway Proving Ground and the Tooele County Sheriff's Office are working together in the search for SPC Bushling.

Tooele County Sheriff Frank Park says the borrowed car was found in an extremely isolated area of the Dugway Range, south of the installation boundaries. The car was pulled from the ravine and transported to Dugway Proving Ground.

More information will be released as it becomes available.
